Enthusiastic and detail oriented frontend programmer with 4 years of experience in web development working with REACT technologies using Javascript, HTML, CSS languages.

I also have experience as a graphic designer working with Adobe Creative Suite specifically Illustrator and Photoshop. I also worked as a programming and chess teacher for teenagers.

I worked as operations manager for Latin American countries in a Russian company, improving the product sales area and managing the company's logistics in the country.

Adept at collaborating with cross-functional teams to drive project success. Seeking to contribute technical expertise and creative skills to a dynamic development team.

🎓 EDUCATION

> ### UCI - HAVANA
SEPT 2011 - JUNE 2016

Bachelor of Computer Science.

> ### MISIS - MOSCOW
SEPT 2019 - JUNE 2022

Master's Degree in Informatics Applied to Design.

💼 EXPERIENCE

> ### .NET DEVELOPMENT
UCI - CUBA   JULY 2016 - SEPT 2016

My first professional work was after graduated from the university. This was a small project part of a video-vigilance solution developed in Visual Studio and C#. My responsibility in this project was the front end development of the client application using Windows Forms.

> ### WEB DEVELOPMENT
CITMA - CUBA   SEPT 2016 - JULY 2017

I started at the Ministry of Science, Technology, and Environment of the Republic of Cuba (CITMA) developing institutional websites. The websites of the ministry were developed in WordPress with a small team of 3 people. I made some graphic designs for the webs using Illustrator and Photoshop and added to the web page created with wordpress new functionalities using HTML, Javascript and CSS

> ### WEB DEVELOPMENT
CITMA - CUBA   SEPT 2017 - JULY 2018

I started giving support to a human resources software suite. This was developed with MongoDB, ExpressJS, React, NodeJS. My responsibilities there were solving small issues and giving data support to the users.

AMC
Andy Martel

> WEB DEVELOPMENT

CITMA - CUBA   JULY 2018 - AUGUST 2019

I was assigned to a team of 5 people to develop an internal web solution for managers that shows statistical results. The software shows gadgets in a dashboard with updated information of science results, environmental issues, and other information. I was involved in the front end layer, using ReactJS, Redux, HTML5, Bootstrap, Sass and GIT. This was a very interesting project that made me focus on web frontend technologies.

> TEACHER

IT GENIUS - RUSSIA   SEPT 2019 - JULY 2020

I worked as Python Teacher & Chess Instructor. I Designed and delivered Python programming courses tailored for children aged from 10 to 16 years, fostering a fun and interactive learning environment. Teaching fundamental programming concepts through games, interactive projects. I also teach chess and Organized chess workshops, cultivating strategic thinking and problem-solving skills among students.

> GRAPHIC DESIGNER

FREELANCER - RUSSIA   SEPT 2020 - JULY 2022

During my Master's studies I worked as a freelancer graphic designer working with the Adobe suite, I carried out Branding projects creating the corporate identity of small businesses for which I also designed graphic elements (logos, banners, business cards, brochures, billboards, posters, etc.)

> WEB DEVELOPMENT

FREELANCER - RUSSIA   SEPT 2020 - JULY 2022

I worked on several freelancer web development projects. Using the MERN knowledge stack (MongoDB, Express, React and Node.js.) more focused on the front end and using NextJs I developed landing pages for companies in the medical sector, commerce, the art of NFT and small business. I also worked on Search Engine Optimization (SEO) projects designing and developing strategies for better internet positioning.

> OPERATIONS MANAGER

47 TECH - Russia   JULY 2022 - JAN 2024

I Led a dynamic team in product sales, managing purchasing logistics and implementing effective sales strategies. Oversaw inventory management, ensuring optimal stock levels. Collaborated with cross-functional teams to optimize supply chain operations and reduce costs. Utilized Jira for project management and Power BI for data analysis. Implemented data-driven decision-making processes to enhance sales performance.
